Would you use a youth mental health support app?

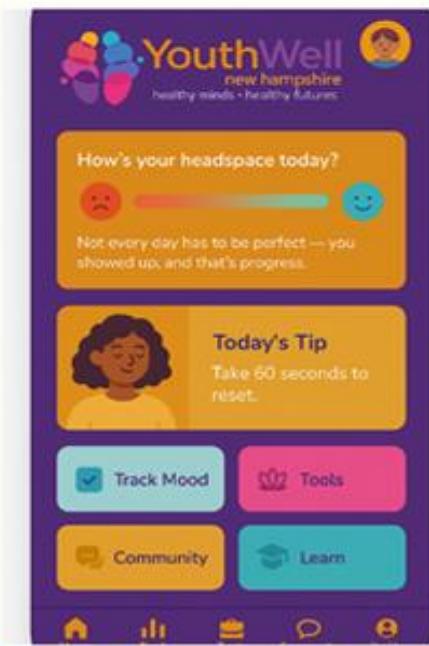

YouthWell New Hampshire is exploring the idea of creating a youth mental health support app.

The app would be a resource, tool and support for
Youth
Parents/Caregivers
Educators

The app would provide resources, tools, education, and support for each of the three target groups. One app, three platforms.

We need your help.

Would you please consider taking the survey below and giving your feedback on if this would be a useful tool for you?
